

Edgewell Personal Care Announced as One of USA Today's 'America's Climate Leaders' in 2023

05/24/23

Recognized for its Reduction in Scope 1 and 2 Greenhouse Gas Emissions

SHELTON, Conn., May 24, 2023 /PRNewswire/ -- [Edgewell Personal Care Company](#) (NYSE: EPC) has been recognized as a Climate Leader in America by USA Today. In partnership with market data company, Statista, USA Today published its first-ever ranking of American companies that achieved the greatest reduction in core emissions intensity.

The selection was measured by identifying companies based on progress in reducing their Scope 1 and 2 greenhouse gas emission intensity between 2019 and 2021. Emission intensity is measured by the amount of greenhouse gases a company produces relative to its revenue, making comparisons between different-sized enterprises possible.

Amy Knight, Vice President of Global Sustainability said, "Being recognized as one of USA Today's 'America's Climate Leaders' in 2023 is a tremendous honor and speaks to the incredible accomplishments from our teams all around the world. It is a testament to the progress we are making against our *Sustainable Care 2030* commitments and doing our part in creating a more sustainable future by decarbonizing our business over time, operating responsibly and acting with intention."

All those included on the list are U.S. headquartered companies with a minimum revenue of \$50 million in 2021. Additionally, those identified are within specific lines of business such as automotive, consumer goods, energy, finance, retail, software and transportation.

Edgewell's inclusion on this list represents the company's work toward being a part of a world in which caring for ourselves is balanced with caring for our shared planet and society.
